## Santa Clara Valley Model T Ford Club

January 2, 2008

Barry Kinney  
SF Bay Area Chapter Model A Ford Club  
3969 24 St  
San Francisco, CA. 94114

Dear Club Representative,

The 8<sup>th</sup> annual Antique Autos in History Park event will take place on Sunday, September 14, 2008 at History Park (Kelley Park) in San Jose. You and your club members are cordially invited to attend this event.

This year we are planning some new attractions. There will be a demonstration of the assembly of a Model T in less than six minutes. There will be a display by the "hat lady" of her collection of vintage hats. And music will be provided by JP and the Rhythm Chasers.

We are expecting over 150 antique autos, fire equipment, motorcycles and bicycles plus the Early Day Gas and Tractor Association. As with previous years, we will continue to display and demonstrate early day hand crafts in the firehouse. Activities will be provided for the kids, there will be blacksmith demonstrations, old time movies will be shown and food will be available. Awards will be given for vintage costume recognition. History Park historic buildings will be open and the trolley will be running.

I would like to remind everyone that entrance and activities at this event are **free** to all. I also would like to remind participants that to enter a vehicle on the Park grounds, it must be what would have existed in 1945 or earlier.

I would appreciate you informing your Club members of this event and insuring that it is noted on your Club's calendar. Thank you.

Sincerely,

Allan J. Greenberg  
Antique Autos in History Park Coordinator
